

# DecoTurf<sup>®</sup>

The Surface of Choice

for the World's Most

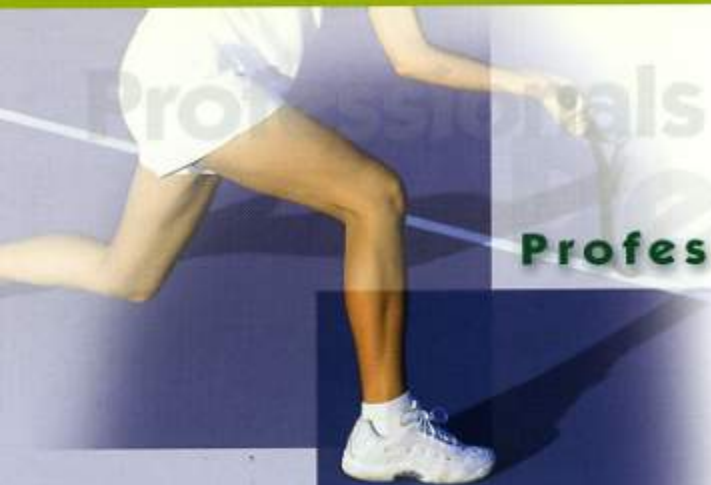

Demanding Tennis Players

Selected for use at the 2004 Olympic Games in Athens Greece and the USTA National Tennis Center, site of the US Open.

# DecoTurf®

## Professionals Demand DecoTurf®

Each year more professionals play more matches on DecoTurf than any other cushioned acrylic tennis surface. Worldwide, the most prestigious events are played on DecoTurf. It's no surprise that it has been selected for use at the USTA National Tennis Center, site of the US Open since 1978. From tournament director to collegiate coach, architect to homeowner, *professionals demand DecoTurf.*

"...formulated to favor neither offense nor defense and therefore offers a fair test of competitive skills."

*The US Open, Game, Set, Unmatched - Roger Williams*

## Outstanding Performance

DecoTurf is unmatched in providing full-depth resilience. Its multi-layer cushioned system affords maximum player comfort and exceptional durability throughout the life of the court. In addition, each DecoTurf court can be fine tuned to provide the precise speed of play you desire. All DecoTurf courts have been classified by the International Tennis Federation (ITF) in each of the three categories, slow, medium and fast.

## Decades of Durability

DecoTurf courts provide exceptional performance. 100% acrylic resins and select SBR rubber granules assure that DecoTurf's cushioned system remains resilient for decades. The textured acrylic finish of the DecoTurf system is highly resistant to weather and ultraviolet degradation. The wide variety of long lasting colors creates a vibrant all-weather, uniform surface for years of play.

**"The hardcourt of choice is the Pro DecoTurf system. This surface is selected for its consistency, ease of maintenance & durability. It also offers the ability to control the courts' footing and ball speed."**

**"Resurfacing of the Open: A Yearly Ritual"  
-The New York Times**

# Tennis Surface of Champions

## Relentless Research and Development

Continued research and development keeps the DecoTurf system on the technological forefront. Each DecoTurf system is subjected to ongoing in-house and independent laboratory testing. Speed of play, ultraviolet performance, impact resistance and energy return are carefully evaluated and monitored. DecoTurf integrates the latest acrylic polymer technologies with the latest asphalt and concrete technologies to produce the ultimate cushion tennis surface.

"The DecoTurf II courts... have come to be seen as the fairest, if not the most appealing surface on which to crown a champion."

- *Tennis Magazine*

## Unmatched Affordability

The demand for cushioned tennis courts continues to grow throughout the world. Affordable cost and ease of maintenance make DecoTurf the perfect choice. From multi-court tournament facilities to single backyard courts, professionals demand DecoTurf. Demand DecoTurf on your court.

"I had a DecoTurf court installed on my property about six years ago. Since then, all my friends who had played on other courts previously, now all come to my house to play on the Deco court. They're amazed with the performance of the cushioned system, a true ball bounce and no more knee pains, I can't say enough about the DecoTurf product and the service I receive from the company."

- *Nancy G.,  
Residential Court Owner  
Pennsylvania*

## Cushioned Surfacing System

- 1. Filler Course:** Acrylic Resurfacer blended with approved silica sand.
- 2. Heavy Rubber Course:** DecoTurf® II, specially graded large rubber particles provide the system its distinct cushioned playing characteristics.
- 3. Fine Rubber Course:** DecoBase® II, creates a smooth cushioned finish in preparation for the texture and finish courses.
- 4. Texture Course:** DecoBase I, blended with DecoColor® MP Classic, provides a uniform surface texture and determines the speed of play and traction on the court.
- 5. Finish Course:** DecoColor MP Classic will create a vibrant, durable finish highly resistant to weather and ultraviolet degradation.
- 6. Lines:** A heavy bodied acrylic latex, DecoColor white striping paint, comes both textured and untextured, and covers in one application.

*(The above installation is a brief overview of the application of this product, be sure to follow the proper product installation specification sheet for comprehensive installation instructions. Color and scale not representative of actual product.)*
