

Tennis...anyone?

The cracks in this court were repaired using traditional methods.

If you can't afford to do it right... can you afford to do it again?

You've heard *that* before, but here at [INSERT COMPANY NAME], it's not just a catchy rhyme, it's our mantra. Traditional crack repair methods can leave unsightly patches that don't last—resulting in frequent and costly repairs. Tennis court cracks expand and contract with changes in temperature, freezing and thawing and with use. To insure a long-lasting, durable and seamless repair, we use the RiteWay Crack Repair System.

RiteWay is a layered system that becomes an integral part of the tennis court and results in an invisible repair which is not effected by weather or temperature. The installation is so

unique that many tennis court owners can't believe its proven success until they see it for themselves.

The RiteWay System utilizes a micro-technology that allows the existing cracks in your court to move without breaking the repair. It not only keeps cracks from coming back, but it eliminates dead spots, hollow sounds and bubbling common with other systems.

RiteWay A durable system in a league of its own.

Crack Repair System

RiteWay Crack Repair System: Laying down micro sealant tape and stress mat.

No Hollow-Sounding Areas. No Dead Spots. No Bubbling. A True Bounce. Guaranteed.

We've seen the other systems on the market, but no other overlay system can give you the RiteWay results or guarantee. A RiteWay repair comes with a 2-year conditional warranty and is priced 50 to 75% below the cost of reconstruction.

RiteWay will keep your court looking new and playing safe year after year.

Works well on these surfaces:

Tennis Basketball
Volleyball Handball
Inline Hockey Pickleball

Fix Your Cracks — “Do it the RiteWay”

To ensure that you are getting the best crack repair system, include the following bid specifications:

1. Clean out crack making it free of dirt and other debris.
2. Crack to be filled from bottom to top with court patch binder or cement and let dry.
3. Filled crack must be scraped or buffed flush with court and cleaned, broomed and blown.
4. Area to be repaired must be DRY and at 60°F and up to 100°F.
5. Apply RiteWay Crack Repair System, centering the first layer RiteWay MicroSealant™ tape over filled crack. This flexible adhesive layer is key to the system. “Slip sheet” systems are not equivalent.
6. Apply Liquid Acrylic and Latex binding formula (50/50) over MicroSealant™ tape. Apply second layer 20” stress mat centered over first layer saturating with binding formula.
7. Apply binding edge, the third layer of the RiteWay Crack Repair System, centered over stress mat edge. Let dry.
8. When dry, apply a minimum of two coats of acrylic resurfacer with sand lengthwise over crack repair.
9. The courts are ready to be color coated and striped.
